EXT RESCUE®

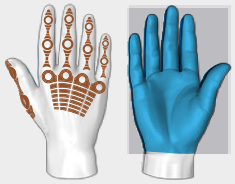

4012

HexArmor®

If you have to make a decision between a safe glove and a well-fitting glove, you aren't picking the right tool for the job. In critical moments, a bulky glove can lose seconds that you can't afford to lose. Too many extrication gloves fail to deliver safety and comfort - but the EXT Rescue® 4012 promises both. With an level A8 cut-resistant palm and our advanced impact-protective design, you can trust this glove to keep you protected from twisted metal and shattered glass. A pre-curved design, double-stitched side seams, and our maximum-comfort fingertip structure give this glove the fit and feel you need to get the job done. Your job is too important to be worrying about comfort, so HexArmor® took that worry away.
