

PMI® Avatar Deluxe Harness

Back in stock. Refined for the work.

The PMI® Avatar Deluxe Harness is available now in Standard. The current version includes lower-profile quick-release buckles at the waist and leg risers and lanyard parking points on both shoulders for connector storage when not in use.

Built for rescue, rope access, fall-arrest, and confined-space applications. Integrated upper and lower harness sections and color-coded buckles support donning and fit checks. Made in the USA.

Features

- Lower-profile quick-release buckles at the waist and leg risers
- Lanyard parking points on both shoulders for connector storage when not in use
- Adjustable, integrated upper and lower harness sections with color-coded buckles
- Sternal, dorsal, and waist attachment points; work-positioning side D-rings; fall arrest indicator

Important: Lanyard parking points are for storing unused lanyard connectors. They are not life-safety attachment points. Refer to the manufacturer's instructions before use.

Specifications

- SKU: SG51263
- Size: Standard
- Fit range: waist 31 in to 54 in; chest 30 in to 54 in; user height 5 ft 2 in to 6 ft 8 in
